Insect roller blinds

Model IS 99 FZ-V

Insect roller blind with spring balancer drive and closed box. Vertical operation; installation directly onto the window frame.

Also available as:

Model IS 99 FZ-H

Insect roller blind with spring balancer drive and closed box. Horizontal operation; installation laterally onto the window frame.

Types of custom-made fabrics

- Insect screen made from plastic-sheathed fibreglass
- Insect screen made from aluminium
- Pollen screen made from textile fabric

New - Pollen screen

Custom-made textile fabric - prevents the entering of more than 87% of all types of pollen!

Note: Insect screens made from aluminium and pollen screens are only available with insect protection frames; they are not available with roller blinds!
